

## Information for Sponsors

Companies and related organisations are hereby invited to support the organisation of the 48<sup>th</sup> annual conference of the European Society for Engineering Education - SEFI (Société Européenne pour la Formation des Ingénieurs).

SEFI, founded in 1973, is the largest non-profit organisation of higher engineering education in Europe, and through its institutional membership it connects over one million students and 160.000 academic staff members in 48 countries. The mission of SEFI is to contribute to the development and improvement of engineering education, to reinforce the position of engineering professionals in society, to improve the dialogue between all the actors of engineering education (policy makers, academic leaders and staff members, students, employers and related partners).

The sponsorship of the SEFI 2020 annual conference offers therefore a large spectrum of benefits:
